Helping hands

When I see someone fall down I will lift them up
If they're lying on the ground I'll use my helping hands
 Helping hands, helping one another
 I'll do all I can, with my helping hands
 If my Mommy is the cook And the baby's crying
 I will read to him a book With my helping hands
If my Daddy is alone Working in the garden
I will help him weed and hoe With my helping hands
Hands should never hurt or fight
Or make someone unhappy
Do some good and make things right
With your helping hands
 Helping hands, helping one another
 Lets do all we can, with our helping hands
